

## Medidata Clinical Cloud Overview

### Instructor Led Training Agenda

**Course Description:** The Medidata Clinical Cloud Overview is a class designed to cover how personas involved in the clinical trial process use Medidata Clinical Cloud products to perform their jobs during the stages of a clinical trial.

The MCCO is an introductory level course. Comprehensive training for each of the products is available through additional Medidata Academy training courses.

Approximate Duration: 4 hours

Module	Topic
<b>Welcome</b> (10 min)	<ul style="list-style-type: none"><li>Objectives &amp; Medidata vision</li></ul>
<b>The Clinical Cloud</b> (10 min)	<ul style="list-style-type: none"><li>Clinical Cloud description</li><li>Acorn A.I.</li></ul>
<b>The Foundation</b> (10 min)	<ul style="list-style-type: none"><li>MEDS</li><li>Cloud Admin</li><li>iMedidata</li></ul>
<b>iMedidata/Cloud Admin Demo</b> (15 min)	Demo
<b>Personas Intro</b> (10 min)	Intro to the Clinical Trial Personas
<b>Study Design</b> (20 min)	Medidata Products used during Study Design, by persona
<b>Study Design Optimizer Demo</b> (15 min)	
<b>Study Startup</b> (20 min)	Medidata Products used during Study Startup, by persona

<b>CTMS Demo</b> (10 min)	
<b>Break</b> (15 min)	
<b>Conduct and Oversight</b> (15 min)	Medidata Products used during Conduct and Oversight, by persona
<b>eCOA Demo</b> (10 min)	
<b>Closeout/Post-Database Lock</b> (10 min)	Medidata Products used during Post-Database Lock, by persona
<b>PDF Generator Demo</b> (10 min)	
<b>Commercialization</b> (10 min)	Medidata Products used during Commercialization, by persona
<b>Detect Demo</b> (15 min)	
<b>Wrap Up</b> (10-15 min)	Summary
