

# Medidata Clinical Cloud Overview ILT update

Medidata Global Education is happy to announce the availability of **Medidata Clinical Cloud Overview** instructor-led training course. (formerly Medidata Fundamentals Overview (MFO)).

## What does it cover?

The Medidata Clinical Cloud Overview is a class designed to cover how personas involved in the clinical trial process use Medidata Clinical Cloud products to perform their jobs during the stages of a clinical trial.

## By the end of this overview, you will be able to understand the:

- Medidata Clinical Cloud vision and value
- Roles and Responsibilities of the Clinical Trial Personas
- How the Medidata Products are used by the Clinical Trial Personas during the trial stages

## What has changed?

- **The name! It is now called Medidata Clinical Cloud Overview**
- The course duration is now 4 hours (.5 credit) reduced from 16 hours (2 credits)
- The course update offers a story driven, clinical trial timeline-based overview of our Medidata Clinical Cloud, explained with the use of clinical trial personas. The trial process is reviewed, stage by stage to explain how specific personas leverage the Clinical Cloud for their activities.
- Key product demos in each trial stage support the Medidata clinical trial story.

**Please note** - This course is recommended as an introductory course to the Medidata Clinical Cloud and intended to be paired with other standard product Instructor-Led courses to provide a foundation of knowledge required to better understand the products that are a part of the Medidata Clinical Cloud.

## For Internal and External Audiences

For internal Medidata audiences: MCCO is part of a program that includes other courses that cover clinical research, stakeholders, etc.. called "Life Science Overview Education Program" that will automatically be assigned to certain new hires. Look for the "Life Science Overview Education Program" program in Learning Lab.

For external audiences (clients and partners): This course is recommended as an introductory course to the Medidata Clinical Cloud and intended to be paired with other standard product Instructor-Led courses to provide a foundation of knowledge required to better understand the products that are a part of the Medidata Clinical Cloud. MCCO can also be taken on its own as a completely stand-alone course.

## **How can I schedule Training for my customers?**

You may fill out the Training Request Form found on the [Global Education Services page on the 3DS Platform](#).
