Getting Started with Medidata Rave RTSM
eLearning Outline

Course Description: This course is designed for users who can design studies and manage the development of studies in Rave RTSM. It covers basics of Rave RTSM such as a life cycle overview, how Rave RTSM integrates with iMedidata and Medidata Rave, the study setup wizard, and the impact of roles and permissions.

Approximate Duration[1]: 20 min

Module	Topics
Welcome (2 min)	Welcome
	Objectives
Introduction (4 min)	Introduction
	Life Cycle Overview
	Integration with Rave and iMedidata
	Study Setup Process Workflow - Setting up Studies in iMedidata
Setting up Studies in iMedidata (3 min)	Creating New Studies in iMedidata
	Integration with iMedidata
	Creating New studies in Cloud Administration
	Study Setup Process Workflow - Accessing Studies in Rave RTSM
Accessing Studies and Working with Rave (3 min)	Accessing Studies in Rave RTSM
	Study Setup Process Workflow - Working in EDC
	Working with Rave

---

[1] Duration listed is approximated, and does not reflect activities, simulations or assessments

	Study Setup Process Workflow - Designing Studies in Rave RTSM
Designing Studies in Rave RTSM (5 min)	Rave RTSM Study Setup Wizard
	Study Type
	Advanced Settings
	Blinding Restrictions
	Design Setup
	Randomization Type
	Quarantining
	Enrollment Caps
	Wizard Completion
Roles & Permissions (2 min)	Roles & Permissions in Rave RTSM
	Role Scopes
	Role / Permission Combinations
Conclusion (1 min)	Summary & Next Steps
