If You have RAVE, You have RAVE eCOA — Simply Activate

Eliminate the headache of managing multiple stand-alone solutions and streamline patient data capture efforts with the only unified eCOA platform solution already integrated with RAVE EDC. With Rave eCOA, there is no longer a need for duplicative data entry, multiple data migrations, or harmonization efforts to enable quality data capture and consistency in real time.

Whether at the clinic or from the comfort of the patient's home, RAVE eCOA is a full service, flexible solution that easily and accurately captures patient outcomes data. As part of the Medidata Cloud, Rave eCOA offers a full suite of services and capabilities for unprecedented visibility into the patient experience to provide researchers with nuanced insight into patient progress and the safety and efficacy of therapies.

Rave eCOA — A Full Service Offering

Rave Patient Cloud

Single, Unified Clinical Platform
Capture, track, analyze, visualize, and report on all types of patient-centered clinical trial data whether in the clinic or remotely.

Operational Scale
We see a future where the inclusion of mobile technology is no longer a question for operational teams.

Any Study, Anywhere
Global clinical trials require flexible solutions that can meet evolving study requirements, local regulatory guidelines, and can be deployed on a variety of hardware and in a variety of shapes and styles.

A Larger Journey
A new set of workflows revolve around the patient, providing profound new experiences for clinical trials of the future.
