Medidata Cloud Administration: 2018.5.0 Release Training
eLearning Course Outline

Course Description: This eLearning covers new features such as adding the same access to multiple users within the same Client Division or same Studies, copying roles from an existing Client Division into another Client Division, improved searching options on the Managed Roles screen, and the ability to view audit changes for Client Division Role Assignments and Study Environment Sites. The course will also cover enhancements to existing Cloud Administration features, such as an improvement to the error messages when uploading users to a study.

Approximate Duration: 9 minutes[1]

Module	Topic
Welcome	Objectives
