# Medidata RACT: Admin User Configuration, Part 1
## eLearning Course Outline

**Course Description:** The Medidata Risk Assessment Categorization Tool (RACT) allows study team members to identify, document, measure, and monitor the risk of a study protocol and devise a risk monitoring plan. The plan incorporates critical processes, critical data, source data review strategies, and key risk indicators. This course focuses on administrator functions within RACT. Topics covered include:

- Accessing RACT Settings
- Configuring the Risk Assessment Template
- Configuring Risk Scoring

Approximate Duration: 16 min
