Medidata RACT: Critical Processes
eLearning Course Outline

Course Description: The Medidata Risk Assessment Categorization Tool (RACT) allows study team members to identify, document, measure, and monitor the risk of a study protocol and devise a risk monitoring plan. The plan incorporates critical processes, critical data, source data review strategies, and key risk indicators. This course covers the administrative and end user functionalities in the Critical Processes section, including:

- Manage Critical Processes at Client Division Level
- Manage Critical Processes at Study Level
- Critical Process End User Configuration
- Reviewing and Approving Critical Processes

Approximate Duration: 12 min

Module	Topic
Welcome (0.5 min)	Objectives
Medidata RACT: Critical Processes (11 min)	**Manage Critical Processes at Client Division Level**
	Add Custom Critical Process
	Enable/Disable Critical Processes
	Manage Critical Processes at Study Level
	Add Custom Critical Process
	Enable/Disable Critical Processes
	Copy Critical Process from Study Level to CD Level
	Critical Process End User Configuration
	Adding Critical Processes to Risk Plan
	Configuring Critical Processes
	Reviewing and Approving Critical Processes
Summary (0.5 min)	Summary
