

Medidata Rave RTSM : Identifying Supply Accountability Inventory for Destruction

eLearning Course Outline

Course Description:

Medidata's Supply Accountability is a unified system spanning both Rave and Rave RTSM that provides a full account of all investigational products from depot to destruction. Supply Accountability lets sponsors and investigators monitor study supply storage, supply dispensation, supply return and/or destruction.

In this course, we will demonstrate how Supply Accountability items are marked for destruction at either destruction sites, or sent to destruction depots. We will also review the Supply Accountability Destruction history.

Approximate Duration: 17 minutes

| Module | Topic |
|--|--|
| Welcome (1 min) | Objectives |
| Rave RTSM: Identifying Supply Accountability Inventory for Destruction (9 min) | Identifying sites as destruction sites |
