Medidata Rave RTSM Cohorts Overview
eLearning Outline

Course Description: This course explains how to use the Cohorts feature in Rave RTSM, and demonstrates how users can set up a cohort enabled study, create and design individual cohorts, duplicate cohorts, import cohorts from an existing cohort study design you have access to, and manage cohort status

Approximate Duration[1]: 15 min

Module	Topics
Welcome (1 min)	Introduction & Objectives
Creating Cohorts (3 min)	What are Cohort Enabled Studies?
	Enable Cohorts in a Rave RTSM Study
	Study Creation Wizard
	Create a New Cohort
	Edit a Cohort
Designing Cohorts (7 min)	Randomization and Supply Check Option
	Master Design and Individual Cohort Designs
	Design Elements for Master Design
	Design Elements for Individual Cohorts
	Design a Cohort
	Duplicate a Cohort
	Import a Cohort
Changing Cohort Status (4 min)	Cohort Status Overview
	Types of Cohort Status
	Cohort Status Summary
	Change the Cohort Status
Manually Changing a Subject's Cohort (2 min)	Changing a Subject's Cohort Overview

---
