Medidata Balance Re-Randomization / Multiple Treatment Periods

eLearning Outline

Course Description: This course explains how authorized users can now create multiple treatment periods in the same study, and re-randomize move subjects linearly through treatment periods.

Approximate Duration[1]: 16 min

Module	Topics
Welcome (1 min)	Introduction & Objectives
Re- Randomization & Enabling Treatment Periods (4 min)	● About Re-Randomization
	● Understanding Re-Randomization
	● Enabling Treatment Periods (Important Considerations)
	● Enabling Treatment Periods
Designing Treatment Periods (4 min)	● How to Design Treatment Periods
	● Master Design
Understanding Re-Randomization Design (3 min)	● Re-Randomization Design
	● Visit Schedule for Treatment Periods
	● Deleting Treatment Periods
Re-Randomization and Dispensation in Treatment Periods (3 min)	● How to Re-Randomize and Dispense in Treatment Periods
Conclusion (1 min)	Summary
