

Rave Clinical Views Overview

eLearning Course Outline

Course Description: The purpose of the clinical views feature in Rave is to provide users with a method to browse up-to-date subject data entered into Rave through a simple, tabular format. This eLearning course will allow the users to learn about accessing, configuring, scheduling, and extracting clinical views.

Approximate Duration¹: 15 minutes

Time	Topic
15 minute	<p>Module 1</p> <ul style="list-style-type: none"> • Overview • Who uses clinical views? • How are clinical views created? • How do you access a view? • How do you view in a Data Listing Report? <p>Module 2</p> <ul style="list-style-type: none"> • Clinical Views: Settings • What clinical view columns display for certain fields? • How do you separate cross environment and production views? <p>Module 3</p> <ul style="list-style-type: none"> • Clinical Views: Configuration • How do you set up new projects using scheduler? • How do you determine what studies will be running clinical views? • How do you add a project? <p>Module 4</p> <ul style="list-style-type: none"> • How do you generate a view using SAS on Demand? • Quiz
