

## Medidata RACT: 2019.1.0 Release Training eLearning Course Outline

**Course Description:** The Medidata Risk Assessment Categorization Tool (RACT) allows study team members to identify, document, measure, and monitor the risk of a study protocol and devise a risk monitoring plan. The plan incorporates critical processes, critical data, source data review strategies, and key risk indicators. This course covers the features and enhancements added to RACT in the 2019.1.0 Release. Topics include:

- Save Risk Subcategory as Draft
- Action Type for KRI Configuration
- Export Risk Plan as Excel Document
- View Risk Plan Start Date
- Critical Processes Updates

Approximate Duration: 5 min
