Medidata Rave RTSM: 2019.3.0 Release Training
eLearning Course Outline

Course Description:

This course will cover the new features and enhancements related to the 2019.3.0 release, such as allowing items to be manually dispensed in Rave EDC as part of the Treatment Design, downloading treatment assignments to a spreadsheet file, configuring when the depots should be added to the overall shipping algorithm queue, moving numbered items between lots, adding the site's recipient information when a shipment is sent, and downloading inventory to a spreadsheet file.

Approximate Duration: 8 minutes
