Getting Started with Medidata Dashboard
eLearning Course Outline

Course Description: The new Medidata Dashboard application visually tracks and displays key metrics and data points to monitor the clinical trial management process. Team members no longer have to manually gather information from various areas to determine where their priorities should be. The single-page Dashboard provides various platform users a consolidated view of the tasks they need to perform. The Dashboard also provides a quick summary of desired information.

The Getting Started with Medidata Dashboard course covers the essentials of the Dashboard, including:

- Accessing Medidata Dashboard
- Navigating Basics for Medidata Dashboard

Approximate Duration:7 minutes

Module	Topic
Welcome (0.5 min)	Objectives
Accessing Medidata Dashboard (1 min)	Logging In
Navigating Basics for Medidata Dashboard (5 min)	Client Division Level Dashboard View My Issues and My Actions Cards Study, Country, and Site Level Dashboard View Accessing Issues and Actions from the Dashboard
