

Medidata Rave RTSM: Managing Supply Plans eLearning Course Outline

Course Description:

This course is intended for Rave RTSM supply managers who have the ability to create and manage supply plans for study sites. The eLearning will go over how to create and modify a Buffer Only Supply Plan, Predictive Only Supply Plan, and Predictive and Buffer Supply Plan. It will also go over the supply plan options, such as creating Decoy groups and setting the supply plan as the default supply plan for all sites associated to a study.

Approximate Duration: 19 minutes
