The Medidata Rave Clinical Cloud™
# TRANSFORM YOUR STUDY WITH A UNIFIED PLATFORM

The Medidata Rave Clinical Cloud is the industry's only unified platform dedicated to clinical research. Addressing the holistic clinical research process from start to finish, the Medidata Rave Clinical Cloud helps life sciences organizations cut costs, mitigate risks, and deliver treatments and devices to market faster.

All of Medidata's clinical trial solutions are part of the platform. No matter which products you use, you have access to the power of the Medidata Rave Clinical Cloud.

- Acorn AI

FEATURES
Centrally manage your study with powerful platform tools and reporting

Tools
Manage sites, users, and roles across studies

Provide a single sign-on

Centralize data in one place

Connect to any external system

Reporting
Generate reports across studies

Customize and reuse reports

Combine and visualize data

Export data as needed

Connect your clinical trial workflows from start to finish

Document Management

Rave EDC + CTMS + eTMF

- Automatically populate trial master file documents with data from Rave EDC and CTMS

Patient Safety

Coder + Rave EDC + eCOA + Imaging + CTMS

- Monitor safety from the point of capture in Rave EDC, eCOA, and Imaging
- Correctly identify safety issues with Coder and surface them in CTMS

Site Payments

Rave EDC + Site Payments

- Instantly trigger site payments for visits and procedures entered in Rave EDC

Quality Management

Rave EDC + Detect + CTMS

- Uncover trial irregularities with Detect and surface them in CTMS, allowing teams to act in real time

BENEFITS

Enhance collaboration, eliminate redundancy, and improve decision making by centralizing your data in one place

End-to-End
Solutions to address the holistic clinical research process from start to finish

Data-Driven
Powerful AI/ML algorithms to manage the complexity of clinical data for you

Easy-to-Use
A single place to manage studies, sites, users and access

Flexible
Data flows seamlessly to/from external systems, with integrations managed by Medidata

Scalable
A unified and highly scalable architecture; as you grow, the platform grows with you
