# SITE CLOUD END OF STUDY (EOS) SEAMLESSLY IMPROVES COMPLIANCE THROUGH STUDY CLOSEOUT

Site Cloud EOS is the first end-to-end solution that seamlessly generates, distributes, and manages study files at the end of a study. With EOS, sponsors and CROs can now digitally share end-of-study files securely with sites through a unified platform, eliminating any need to create and distribute CDs/DVDs/PDFs as well as any acknowledgment forms.

SIMPLIFY YOUR EOS MEDIA PROCESSES WITH SITE CLOUD EOS

CURRENT APPROACH | 15+ STEPS

End of Study Milestone

1 Sponsor completes EoS Media request

EoS media generated & distributed

2 Third party (or sponsor) generates EoS media PDFs

3 Third party (or sponsor) uploads PDF to CD & adds label (one per site)

4 Third party ships all CDs to sponsor

5 Third party (or sponsor) uploads PDF to CD & adds label (one per site)

Sponsor receives EoS media

6 Sponsor does additional QA for CDs

7 Sponsor packages each CD for site delivery & sends to mailroom

8 Sponsor mailroom coordinates with delivery vendor

Sites receive EoS media

9 Delivery vendor ships CDs to sites across the globe

10 Sites receive CD and manually acknowledge receipt

11 Sponsor manually tracks & follows up with site about receipt acknowledgement

Follow ups & Audits

12 Third party (or sponsor) generates EoS media PDFs

13 Third party (or sponsor) uploads PDF to CD & adds label (one per site

14 Third party ships all CDs to sponsor

15 Third party (or sponsor) uploads PDF to CD & adds label (one per site)

SITE CLOUD EOS | 3-4 STEPS

1 EoS media generated & distributed

2 Sponsors & Sites receive EoS media

3 Sponsors confidently report EoS compliance

4 Follow ups & Audits

✓ **Data Availability** **Automatic**

✓ **Sites** **100%**

✓ **Compliance** **Full Audit Trail**

The ONLY platform for digitizing and sharing all EOS documents

INCREASED COMPLIANCE
- With controlled access and full audit trail ensures sites have access to data at all times
- Highest level of information security, data privacy and quality management

IMPROVE OPERATIONAL EFFICIENCIES
- Reduced manual efforts through cloud-based file distribution, eliminating need to develop and distribute CDs and acknowledgment forms to sites

IMPROVE SITE SUSTAINABILITY
- Reduced site burden by providing central location for receiving critical study assets
