Powering Smarter Treatments and Healthier People

Medidata is leading the digital transformation of life sciences, creating hope for millions of patients. Medidata helps generate the evidence and insights to help pharmaceutical, biotech, medical device and diagnostics companies, and academic researchers accelerate value, minimize risk, and optimize outcomes.
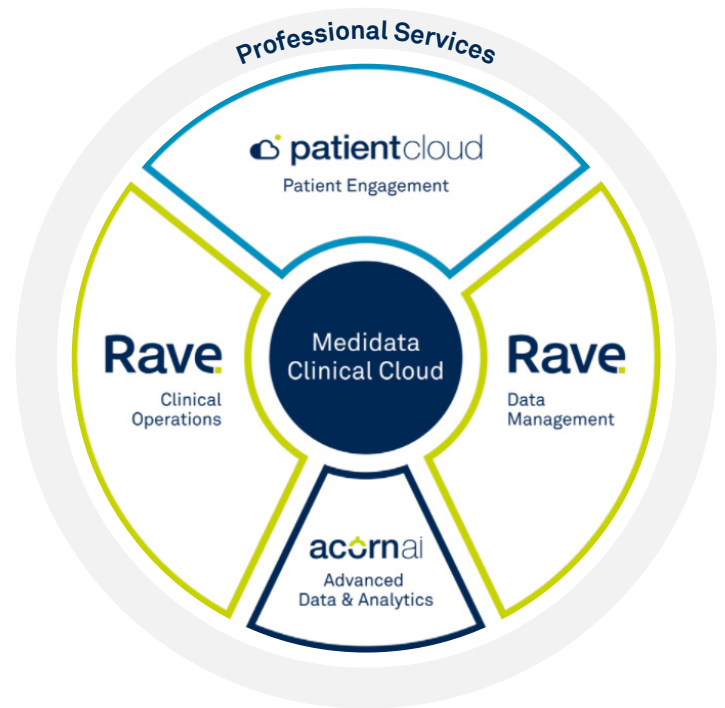

Our Pioneering Solutions and Services

The **Medidata Platform** is the life science industry's only unified platform addressing the holistic clinical research process from start to finish, focused on **sustainable innovation, clinical operations, patient centricity** and **patient outcomes**. Medidata's focus on **evidence generation, data management** and **decentralized clinical trials (DCT)** is transforming the clinical trial experience for company **partners**, including patients, sponsors, CROs and research sites.

Rave Data Management eliminates complex, manual processes and delivers higher quality data for faster insights.

Rave Clinical Operations drives efficiency, agility, and decentralization of study execution with integrated site, investigator, and sponsor workflows, embedded analytic insights, and real-time data availability.

Medidata Acorn AI combines unparalleled clinical trial data with a unified platform, advanced analytics, and deep human expertise to help uncover breakthrough insights.

Patient Cloud is a suite of powerful solutions that makes it simple and engaging for patients to participate in any clinical trial – so trials are easier, faster, and produce better results.

Helping Life Sciences companies deliver innovative therapies to patients faster.

Medidata's dedicated experts ensure customers realize the most value by advising the implementation, adoption, and support of clinical trial technologies. **Medidata Professional Services** is the only technology partner with the expertise to power success through a personalized approach from a trusted team. Navigate the evolving landscape of clinical trials and achieve optimal outcomes with our deep domain experience on the industry's leading platform.

Highlights

Medidata has achieved remarkable milestones as a trusted partner to the life sciences industry, including:

- 2,000+ customers (biopharma sponsors, CRO partners, MedTech)

- 27,000+ total trials on Medidata platform

- 8M+ patients and healthy subjects

- Studies conducted in 156 countries

- A leader in COVID-19 R&D
  - More than 500 studies in pharmaceuticals, vaccines, devices, and diagnostics
  - Studies in >80 countries
  - >500,000 study volunteers

- Medidata involved in nearly 40% of company-initiated trial starts globally in 2021

- Medidata technology supported 64% novel drugs approved by FDA in 2021

- 13 of the top 15 medicines sold in 2020 relied on Medidata technology

- 9 out of the top 10 CROs partner with Medidata

Corporate Social Responsibility is integrated into the fabric of Medidata.

Access for All
Medidata's patient-centric focus includes a commitment to increasing diversity in clinical trials and maintaining a focus on rare diseases.

Diversity, Equity and Inclusion are embedded in our culture's DNA. It is our diversity, inclusiveness, and ability to foster equality with our culture and practices that fuels innovation, sparks our passion and commitment to patient health.

STEM Education
A focus on mentoring, coding and access to learning and career advice, along with working to bring student ideas to life with the Tech Entrepreneurship Incubator.

The Social Innovation Lab
Medidata's unique skills-based volunteering program that pairs employees with non-profit partners to work on priority projects.

Proven to Transform Your Study

Organizations on the Medidata Clinical Cloud reach their study milestones faster

1 Month
Faster in study build
When using Medidata Professional Services[1]

2 Months
Faster in conducting studies
When using multiple appications[2]

9 Days
Faster to reach database lock
When using multiple appications[3]

1 Analysis of difference in median build time vs. matched studies not using PS (p<0.05); Reduction of 30 days.

2 Analysis of difference in median FPI to LPLV time for EDC + at least one additional product vs. EDC only studies (p<0.05) 2017 to 2021; Reduction of 59 days.

3 Analysis of difference in median LPLV to DBL time for EDC + at least one additional product vs. EDC only studies from 2017 to 2021.
