# Site Cloud: End of Study

Site Cloud: End of Study (EOS) is the first end-to-end solution that seamlessly generates, distributes & manages sites' study files at the end of a study.

With EOS, sites' study files are accessible and downloadable via a secure and trusted unified platform, eliminating the need to create and distribute physical media and deal with paper acknowledgment forms. EOS is transforming the way sites' study files are collected and stored.

Product Benefits

The ONLY platform for digitizing and sharing all EOS documents enables sponsors & CROs to:

Increase Compliance

- With controlled access and full audit trail, sites always have access to data
- Highest level of information security, data privacy and quality management

Reduce Risk

- Reduces manual efforts through cloud-based file distribution that eliminates the need to develop and distribute CDs and acknowledgment forms to sites

Improve Site Sustainability

- Reduces site burden by providing a central location for receiving critical study assets

Eliminate Physical Media

- No more CDs!
- Eliminates risk of damaged media
- Eliminates burden of providing electronics that read CDs
