Built for the Next-Generation Clinical Trials
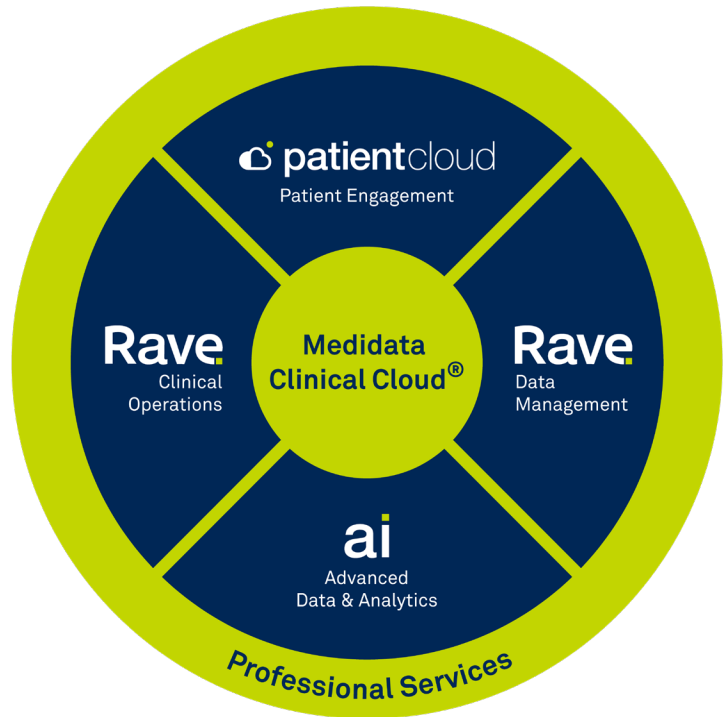

The Medidata Clinical Cloud® transforms the clinical trial experience for patients, sponsors, CROs, and research sites.

As the industry's only unified platform dedicated to clinical research, the Medidata Clinical Cloud addresses your research challenges today and sets you up to tackle the next generation of clinical research.

All of Medidata's clinical trial solutions are part of the unified platform. So no matter which products you choose, you have access to the power of the Medidata Clinical Cloud.

Our platform helps life science and medical device organizations cut development costs, mitigate risks, and deliver treatments and devices to market faster.

The Medidata Clinical Cloud works seamlessly with your existing systems and can support individual studies through large global programs.

Advanced Data & Analytics

Professional Services

Benefits

Turn Data into Insights
Generate deeper and faster insights, with data connected on one platform

Accelerate Trial Execution
Automate manual workflows and improve decision-making

Connect Experiences
Customize the experience for patients, sites, partners, and sponsors

Trust & Scalability
Scale your studies on a secure and private cloud

Features

Centrally manage all your studies and data

Tools

- Single sign-on for all users
- Central administration for sites, users, and roles
- Metadata management at the program and entity level

Reporting

- Generate reports across studies and applications
- Customize and reuse reports
- Export data as needed

STARTUP

CONDUCT

Connect your clinical trial workflows from start to finish

Document Management
Automatically populate your trial master file documents.

Site Payments
Instantly trigger site payments for visits and procedures.

Patient Safety
Monitor safety from the point of data capture through study completion.

Quality Management
Automatically uncover irregularities and surface them to your teams.

Proven to Transform Your Study

Organizations on the Medidata Clinical Cloud reach their study milestones faster.
