

Medidata Detect: Configuring Centralized Statistical Monitoring (CSM)

eLearning Course Outline

Course Description: In this course, you will learn about:

- Introduction to Centralized Statistical Monitoring or CSM
- How to Configure Datasets for Data Anomaly Detection
- How to Map for Event Analysis
- How to Map for Duplicate Patients, and
- How to Map for Rounding and Propagation

Approximate Duration: 10 minutes

Module	Topic
Welcome (1 min)	Objectives
Introduction (2 min)	Introduction to the CSM module
	Navigation
Detect Mapping Components (6 min)	Dataset Configuration
	Event Analysis Mapping
	Potential Duplicate Patients Mapping
	Rounding and Propagation Mapping
Summary (1 min)	Summary
