- **Data Management & Biostatistics**
- **Event Planning & Management**
- **Information Technology**
- **Quality Assurance**
- **Regulatory Affairs & Medical Writing**
- **Safety & Pharmacovigilance**

We possess the customer focus of a mid-sized company, the adaptability of a seasoned contractor, and the global footprint of a large CRO+. Headquartered in Bethesda, MD, TRI has been ranked among the fastest growing privately-owned companies in the U.S. under Inc. 5000 and in the top 500 Diversity-owned companies in the U.S. by Diversity Business.

For more than four decades, TRI has provided high quality services to clinical trial sponsors in the public and private sector. TRI's success is based on the competence of our staff denoted by their qualifications and experience; and on the high level of client satisfaction as evidenced by the number of repeat business.

TRI's business strategy has been to organically grow at a measured pace to ensure that we offer our clients accessible staff, transparent procedures, and consistently high quality and reliable services, ensuring milestones are always met and expectations are often exceeded. We possess an excellent regulatory track record having gone through unannounced FDA audits with no findings. TRI currently manages the largest IND portfolios in the country.
