

Specialized in Oncology Clinical Research.
Leader in oncology clinical grade
patient registries.

## iOMEDICO: Specialized in Oncology and Hematology.

#### Strategic medical consulting in oncology

- End-to-end cancer drug development
- Innovative clinical trial designs (incl. synthetic arms based on our propriety registry data)
- Access to the oncology community (academic and office-based)
- Regulatory and commercial market access strategy support

#### Full-service CRO

- Fast onset, high-performance patient recruitment
- Precision medicine and biobanking expertise (decentralized and centralized)
- Extensive PRO experience, wearables capabilities
- Proprietary EDC (FDA 21 CFR Part 11 compliant)

#### Leader in oncology clinical grade patient registries

- Longitudinal patient data in all key cancer entities (> 50.000 patients)
- Biomarker profiling
- Rare disease patient identification
- RWE and HEOR analysis

## Full-Service Oncology CRO for Complex Oncology Clinical Trials.

#### Study design and drug development

Team of four experienced clinical oncologists, plus molecular medicine specialists and biostatisticians.

#### · Study launch and management

Oncology expertise in feasibility, site identification and study start up. Exclusive project management, clinical (on- and offsite) monitoring, medical monitoring and safety reporting. Dedicated investigator relationship team experienced in hard to recruit populations.

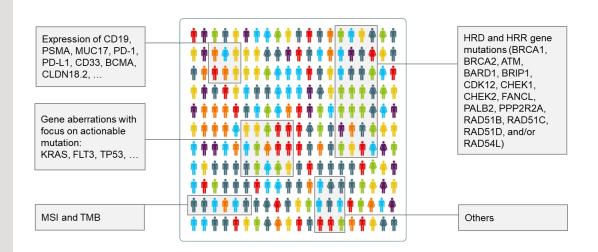

#### Data management & biostatistics

In-house EDC and database design (CDISC), data validation, medical coding and data base lock. Experienced team of biostatisticians for study design (sample sizes, randomization schemes, adaptive trial designs), statistical programming and analysis in R. Statistical consulting.

#### Medical writing

Clinical study reports, clinical safety & efficacy summaries, abstracts and manuscripts.

## **Precision Medicine Capabilities.**

- Precision Medicine
   Identification of patient populations for targeted therapies.
   NGS panel data integration.
- Decentralized and Centralized Biobanking

## Global Outreach. Local Expertise. 100% Oncology Focus.

# **Unique Oncology Research Network in Germany.**

Germany wide > 900 sites:

1/3 University & Community hospitals

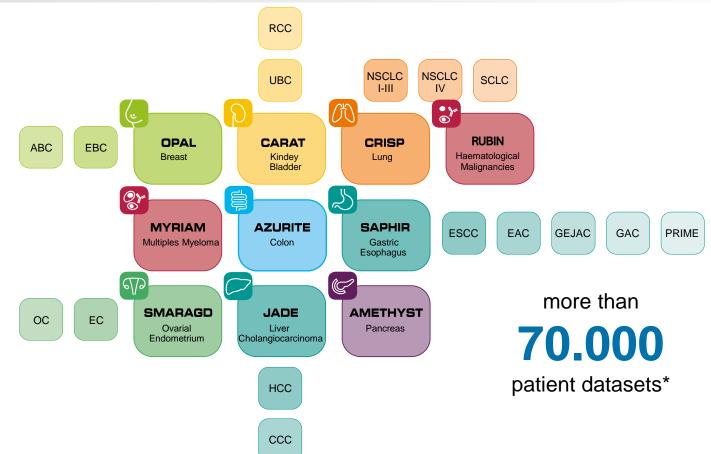

2/3 Office-based

- Oncologists
- Gynecologists
- Urologists
- Other

> 6.000 de novo oncology patients enrolled every year

# **Leader in Oncology Clinical Grade Patient Registries.**

# **Comprehensive longitudinal Real World Databases.**

### Meet the Team.

Michael Pröschel CEO

Dr Norbert Marschner CSO & Founder

Dr Karin Potthoff Medical Director

Dr Sabine Busies Director Clinical Research

Dr Martina Jänicke Head of Clinical Epidemiology and Health Economics

## iOMEDICO - Pioneering research in Hemato-Oncology.

#### Facts & Figures

- Founded in 1996
- Privately owned
- 130 Employees
  - 4 Clinical Oncologists
  - Medical Experts & Medical Writers
  - Clinical Research & Real World Evidence Teams
  - Biometrics & Data Management Teams
  - Medical Informatics Team
