

Intelligent Trials

Increase confidence in operational decision-making from design through execution with AI-powered insights

By leveraging one of the industry's largest clinical and operational dataset, Intelligent Trials enables teams to confidently plan for trial success, including setting and achieving diversity goals, to ultimately bring treatments to patients faster, while reducing complexity and costs.

Once a trial is underway, Intelligent Trials helps you stay agile by diagnosing issues earlier within a dynamic trial landscape to gain a competitive edge. Reduce trial timelines, prevent enrollment delays, and ensure the success of your clinical programs with our turnkey SaaS solution, including AI-powered enrollment predictions and API access that provides unmatched site-level granularity and actionable, real-time, industry-wide insights.

From Study Planning Through Execution: Why Use Intelligent Trials

Leveraging industry-wide, real-time, and historical site performance data, along with cutting-edge AI and predictive analytics, Medidata helps you design smarter studies and stay ahead, reducing risk, accelerating enrollment, and improving execution.

- ✓ **Gain early insights with cross-industry protocol benchmarks**
- ✓ **Simulate protocol design changes to assess operational impact**
- ✓ **Precisely predict trial timelines and study footprint**
- ✓ **Confidently select high-performing sites that meet enrollment targets**
- ✓ **Identify sites with a track record of enrolling diverse patients**
- ✓ **Monitor and benchmark your study in real time to mitigate risks and improve operational performance**

Intelligent Trials is powered by one of the industry's largest clinical trials datasets

How our Customers Benefit from Intelligent Trials

Standardized, validated clinical trial data	Unmatched cross-industry, global dataset that is fit-for-purpose and analytics ready
Unmatched site, country and study-level granularity	Actual enrollment, quality and diversity metrics that enable data-driven decisions across the lifecycle of your trial
Actionable real-time insights	Weekly data refreshes for unique insights that allows customers to calibrate performance and take action within a competitive landscape
Turnkey with white-glove support	Off-the-shelf SaaS solution and API access combined with white-glove service supports customers in making decisions confidently

Intelligent Trials users have access to unique, robust cross-industry data, which empowers better planning and faster execution of their studies.	 <p>TOP 10 PHARMA 6+ months</p> <p>Acceleration of critical study in hyper-competitive indication</p>	 <p>TOP 10 PHARMA 76%</p> <p>Incremental data coverage beyond industry data sharing collaboration</p>	 <p>TOP 10 CROs 46%</p> <p>Overall expansion in sites previously not identified for the study</p>	 <p>TOP 10 CROs 3x</p> <p>Increased study counts for each site to better assess true site performance</p>
