

Medidata Rave CTMS: Managing Enrollments Getting Started eLearning

Course Description: The Participant Enrollment feature provides a quick overview of study enrollment data. From here, you can see if enrollment is open or closed, effectively plan with integrated milestone dates, track how fast people are enrolling, and monitor the percentages of screening failures and early terminations. You can also view charts showing planned, revised and actual enrollment numbers for studies that track participants. If you have the right permissions, you can also change these planned, revised and actual numbers.

Approximate Duration: 15 Min.

Module	Topic
Welcome (1 min)	Welcome
Objectives (1 min)	Objectives After completing this course, you will be able to: <ul style="list-style-type: none">• Understand Enrollments Data: Manual vs EDC• Understand How to Manage Enrollments Data• Understand Non-Cumulative Enrollment Counts• Understand How to Manage the Enrollments Chart Data• Understand How to Manage the Enrollments Widgets
