

Getting Started: Using Medidata Consent to Consent Patients Onsite

eLearning Course Outline

This course is intended for Clinicians and Site Users and provides a thorough understanding of how to use Medidata Consent. This course is intended to enable clinicians and or site users to utilize Medidata Consent to share consent documents with potential participants as well as consent patients, at a site, into a clinical trial.

Attendees in this course, will learn how to:

- Utilize Medidata Consent and understand the benefits and roles
- Sign in and access the patient list
- Share pre-visit resources with potential participants
- Conduct the consent session onsite
- Review patient activity logs
- Withdraw, re-consent, and stop consent for participants

Approximate Duration¹: 30 mins

Module	Topic
Welcome	Course Objectives
Understand the Benefits of Medidata Consent (1 min)	Overview of the various benefits Medidata Consent provides users.
Role Assignments and Access (2 mins)	Understanding the various role assignments/access for Medidata Consent.
Sign In and Access My Patients List (5 mins)	How Clinician and Site Users: <ul style="list-style-type: none"> ● Log into Medidata Consent ● Site user multi-factor authentication ● Overview of the 'My patients' list ● Overview of the consent statuses on the 'My patients' list
Initiate Share Documents Workflow (2 mins)	How clinician and site users share pre-visit resources with potential participants interested in the study.

¹ Duration listed is approximated, and does not reflect activities, simulations or assessments

<p>Add New Patient Workflow (13 mins)</p>	<p>How Clinician and Site Users:</p> <ul style="list-style-type: none"> ● How to Select Consent Documents ● How to Enter Signers Information ● How to hand-off the device and go through the signing experience ● How clinicians countersign
<p>Audit Trail, Withdraw, Initiate, and Stop Consent (6 mins)</p>	<p>Provides an overview of some of the main features with Medidata Consent, such as:</p> <ul style="list-style-type: none"> ● Reviewing the audit trail ● Withdraw consent for a consented patient ● How to re-consent with the initiate consent feature ● How to stop consent for a participant
<p>Summary (2 mins)</p>	<ul style="list-style-type: none"> ● Wrap up ● Summary of Course Objectives
